The website and all components thereof, including without limitation, all sound recordings, demos, metadata and artwork are the exclusive property of ASA9 Music.

Any unauthorized reproduction, distribution, modification, broadcast, scraping, reverse engineering, or exploitation of any kind is a violation of state and federal intellectual property law. ASA9 Music, LLC expressly reserves all rights.

### 2. AI Generated Content

ASA9 Music uses AI technology to provide the examples of potential treatments of our original Copyright protected compositions. These demos are not finished, professional releases; they are examples of what is possible.

Members can choose to collaborate with ASA9 Music to create customized AI-assisted demo recordings, or they can produce new versions with their own musicians using ASA9's AI-assisted demos as a foundation. Either path ensures the final recording is shaped precisely to the member's creative and production needs.

- No AI was used in the writing or composition of our original works.

### 3. Likeness & Artistic Representation

Any resemblance in the Demos to any performers or other artists or any elements of their expression is incidental.

ASA9 Music, LLC does not intentionally replicate, impersonate, or use in any way the likeness, voice, or persona of any performer or other artist.

### 4. No Implied Obligation / No Submission Relationship
